

Kapture[®] Dust Suppression Bags

An engineered dust control solution

A highly concentrated veneering and fast dissolving powder used as an additive to water for the suppression of dust. The powder breaks the water's surface tension making it penetrate and uniformly spread.

Mass: 1 kg

Width: 200mm

Length: 200mm

Height: 50mm

Dissolve Time: 20 mins

Features

- ✓ A highly concentrated powder veneering product
- ✓ Leaves a crust or veneer on the surface to 'kapture' the dust particles
- ✓ Colour additive to identify where product has been laid
- ✓ 100% guaranteed dissolvable bag
- ✓ Biodegradable
- ✓ Removes liquid chemical issues
- ✓ Improves worker safety
- ✓ Drop the bag in the tank and wait!
