

Kapture®

Kapture® IBC Spray System

An engineered dust control solution

The Kapture® IBC Spray System is an engineered solution that is specifically designed for dust suppression dispersion to dusty roads, paths, carparks and quarries. It allows for the storage and distribution of dust suppression to large areas. In addition, it holds 1000L and takes 2 Kapture® DS500-QD Dust Suppression Blocks for the correct amount of surfactant.

Mass: 15 kgs (empty) 1000 kgs (full)

Width: 1200mm

Length: 1200mm

Height: 1000mm
